

Do you pray?

I loved this interpretation of Prayer. What is prayer? Prayer doesn't just happen when we kneel or put our hands together and focus and expect things from God. Thinking positive and wishing good for others is a prayer. When you hug a friend. That's a prayer. When you cook something to nourish family and friends. That's prayer. When we send off our near and dear ones and say, 'drive safely' or 'be safe'. That's a prayer. When you are helping someone in need by giving your time and energy. You are praying. When you forgive someone by your heart. That is prayer. Prayer is a vibration. A feeling. A thought. Prayer is the voice of love, friendship, genuine relationships. Prayer is an expression of your silent being. Keep praying always.
